BUILDING COMMUNITY AT CROSSPOINTE

AT A GLANCE

CrossPointe Church is a thriving community hub with a mission to create meaningful connections through faith, fellowship, and activity. As part of their commitment to engaging youth, CrossPointe had previously installed a VersaCourt surface several years ago. They recently wanted to expand the space into a multi-game court for basketball, pickleball, and other activities.

"We've seen so many relationships with students form through this court and through having this outdoor activity. We're truly blessed."

"Not only were we able to upgrade this court in less than 30 minutes, but now CrossPointe has a multi-game court for pickleball, basketball, and more."

"All the kids' ministry just overall get outside, have more fun, play more games, get away from screens, and just stay focused on what truly matters."

CHALLENGES

- CrossPointe needed to make the most of their limited outdoor area by creating a court that could support multiple sports and activities without requiring additional land.
- The church aimed to provide a safe, engaging space where students could get outdoors, form friendships, and participate in physical activity away from screens.
- Any upgrade had to be completed efficiently so that weekly youth events and ministry activities could continue uninterrupted.

SOLUTIONS

VersaCourt's durable, high-performance surfaces transformed CrossPointe's outdoor court into a versatile, multi-game space designed for active play, connection, and lasting community impact.

FAST & FLEXIBLE UPGRADE
Installed the court in under 30 minutes using Pickleball Performance Tile, designed for quick installation and long-term flexibility. The modular system created a multi-game surface, all with minimal maintenance.

MODULAR & COMMUNITY ENHANCING
With our court designer, CrossPointe's existing outdoor space was transformed into a dynamic center for connection and play, empowering youth to stay active, build relationships, and grow in community.
