

**EMPOWERING  
YOUTH AT LIFT**

## **AT A GLANCE**

LIFT Youth Center is dedicated to creating opportunities for students to be Loved as they are, Inspired to be more, Found in community, and Trusted to make a difference. When the organization acquired a former church building, the team saw potential in transforming the large sanctuary into a safe and inspiring indoor play space for youth.

*"We really want to support students and ultimately create community where they are discovering and achieving a healthy, successful future."*

*"Those more experienced kids, they own this court, they take care of it, and they use it as their stage to teach. It's really an awesome thing to see."*

## **CHALLENGES**

- LIFT wanted every space to reflect its mission and visual identity, making sure that even a basketball court communicated belonging and pride in the community.
- The church's large sanctuary wasn't designed for recreation, limiting opportunities for students to engage in physical activities indoors.
- LIFT needed a durable, easy-to-maintain flooring option that would withstand high use while providing a safe surface.

## **SOLUTIONS**

VersaCourt's customizable, durable surfaces transformed LIFT Youth Center's sanctuary into a safe, branded, and flexible play space designed for creativity, connection, and long-lasting community impact.

### **CUSTOMIZABLE DESIGN**

Wood-Grain Court Tile with custom branding options allowed the court to feature LIFT's logos and colors, helping to visually tie the space to the organization's identity.

### **MODULAR BY DESIGN**

The tiles can be easily removed, providing long-term flexibility, and were configured to fit the unique dimensions of the former sanctuary space using our custom design tool to ensure a precise layout and seamless installation.
